JOIN IN THE WORLD'S FIRST UNDERGROUND RUN IN A WORKING SALT MINE!

THE WINSFORD
UNDERGROUND
SALT RUN

The world's first underground 10k run in a working rock salt mine is being planned for September and we are inviting you to get involved in supporting this unique event.

Taking place on Saturday, September 3, 2016 the run will take place 150metres below ground in the country's biggest rock salt mine, in Winsford, Cheshire.

The mine is an amazing place and absolutely unique in terms of running venues with the 10k route taking in some of the 160square miles of tunnels underground, in what is hoped will be a Guinness World Record.

The event has already attracted media attention and is expected to be a major fund-raising event for the CRY cardiac screening charity as well as to help fund a new all-weather athletics track for local children in Mid Cheshire.

BE PART OF THE EXCITEMENT!

There are only 120 places available on this exciting run and so we are asking potential participants to apply as soon as possible if you wish to take part.

Because this run is being organised to raise money for charity and there is such a limited number of places we are asking runners to pledge as much sponsorship as possible (**a minimum of £250**, but between £500 and £1,000 as an aspirational guide) in order to take up a place.

We know this is a big goal but we hope you will share our ambition to use this opportunity to raise a significant amount of money which will benefit the local community and athletes across the UK.

Even if you feel you won't be able to meet this target we still encourage you to apply as we welcome your support, and there are a significant number of community-sponsored places being awarded too.

To sign up and apply for a place, please fill in the details left.

Please note applicants must be aged 18 years or over and a £25 entry charge will be made to cover costs.
